# DEVELOP MANUFACTURE SUPPLY

**Aspire Pacific** is dedicated to providing high-quality products and services that connect the Pacific Islands to the global market. Our mission is to be the leading provider of reliable and innovative solutions that facilitate trade, communication, and connectivity across the Pacific region. We are committed to delivering exceptional value to our customers, partners, and communities through our unwavering focus on quality, integrity, and sustainability.

**SCHÜTZE:** Made in Austria since 1925. We are renowned for high-quality components and utilising state-of-the-art production. We believe our ASPHALT-PRO range is the only safety shoe that earns money. WHY? The answer is quite simple: SCHÜTZE ASPHALT-PRO is the only shoe enabling your employees to work on hot asphalt for more than an hour without putting their health and/or safety at risk.

Italian Sports Brand Diadora has cleverly combined its distinguished sporting heritage with its flair for style and innovation to produce a premium range of Diadora Utility Safety boots for the Australian and New Zealand markets.

Created in 2017, Munka is a specialised footwear and apparel safety brand providing affordable, quality workwear. The Munka brand is quickly growing as highly technical footwear styles are added to the product mix. You can be confident all Munka items are the best product at the best price.

# NEW BALANCE INDUSTRIAL

## TIGER TECHNICAL SIDE ZIP

### DUF19001

BLACK

Heavy duty workboot made from water resistant full grain leather. Along with the breathable leather upper, this boot is anti-static, has an oil resistant outsole with slip resistant properties and a 200J impact resistant composite toe cap. The heel energy absorption, Poron® insole and light weight features will keep you on your feet longer. The slip resistant nitrile rubber outsole is heat resistant to 300°C and external bump cap provides additional protection. The YKK® zipper lets you get the boot on and off quickly.

#### FEATURES

- Water resistant full grain leather upper.
- Heavy duty YKK® zip entry plus speed lacing.
- Composite toe cap 200J impact resistance.
- Shock absorbing and cushioning PORON® midsole.
- TPU heel counter support.
- Nitrile rubber outsole.
- Slip resistant outsole.
- Heat resistant to 300°C.

## CRAZE WIDE

### FU1533CT

WHEAT

BLACK

The Craze Wide is specifically designed to fit wider feet. Craze Wide is built around an all new last, contoured to accommodate even the widest feet. Toebox, instep girth, safety cap and outsole have all been expanded. On hot days or after many hours standing, your feet will spread noticeably. Our special forefoot design eliminates lateral compression at the widest point.

#### FEATURES

- S1 Nubuck cow leather water-resistant upper.
- 'Airport friendly' non metallic eyelets.
- 5E extra wide last for a spacious, comfortable fit.
- Kevlar® anti-perforation midsole.
- Moulded TPU scuff resistant toe cover.
- Composite toe cap 200J impact resistance.
- Shock absorbing, lightweight EVA® midsole.
- Nitrile rubber outsole.
- Heat resistant to 300°C.

# STANDARDS

Symbol	Requirements/Features	Required Performance
P	Perforation resistance of shoe underside	≥ 1100 N
E	Energy absorption in the heel area	≥ 20 J
A	Antistatic footwear	between 0,1 and 1000MΩ
C	Conductive footwear	< 0,1 MΩ
EN 50321	Electrically insulating footwear	Class 0 o 00
WRU	Penetration and absorption of water into the upper	≥ 60 min
CI	Insulation from cold	Test at -17°C
HI	Insulation from heat	Test at 150°C
HRO	Heat resistance by outsole contact	Test at 300°C
FO	Outsole resistance to hydrocarbons	≤ 12%
WR	Water resistant footwear	≤ 3 sq. cm
M	Metatarsal protection (only for EN ISO 20345)	≥ 40 mm (size 41/42)
AN	Malleolus protection	≤ 10 kN
CR	Upper cutting resistance	≥ 2,5 (index)

Category		Class	Basic Requirement	Additional Requirement
SB	OB	I or II	all	Basic safety + 200J protective toecap
S1	O1	I	all	Closed heel area Antistatic properties Energy absorption in the heel area Outsole resistance to hydrocarbons
S2	O2	I	all	Same as S1/O1 plus water penetration and absorption Outsole resistance to hydrocarbons
S3	O3	I	all	Same as S2/O3 plus resistance to perforation Sole with relieves Outsole resistance to hydrocarbons

\*\* FO outsole resistance to hydrocarbons S1 - S2 - S3 - S4 - S5

Example: S3 = SB+FO+A+E+WRU+P / S1P = SB+FO+A+E+P

	Slip resistance *	
SRA	ceramic + detergent	heel ≥ 0.28, flat ≥ 0.32
SRB	steel + glycerin	heel ≥ 0.13, flat ≥ 0.18
SRC	SRA + SRB	

\*For new footwear (as with car tyres), maximum sole adhesion is achieved after a certain "break-in" period necessary to remove silicone and release agent residues and other physical and/or chemical unevenness on the surface.

**COMPLETE FOOTWEAR:** height of the upper: heel area: performance of the sole (construction and resistance to detachment of the upper/sole); protection of the toes and the features of the toe piece (excepting EN ISO 20347), anti-slipping properties.

**UPPER:** features of the materials of the upper, lining, tongue, insole (resistance to tearing, abrasion, traction features, permeability to moisture, pH, and for the insole, also absorbing and de-absorbing).

**SOLE:** construction and resistance to tearing, abrasion, flexing, hydrolysis, to the detachment of sole/ insole, to hydrocarbons (EN ISO 20345 S1-S2-S3).

## CLASSIFICATION OF FOOTWEAR

- Footwear made from leather and other materials, excluding all rubber or all-polymeric footwear.
- All-rubber or all-polymeric footwear.

**INSOCKS:** If the footwear is supplied with a removable insock it should be made clear in the leaflet that testing was carried out with the insock in place. A warning shall be given that the footwear shall only be used with the insock in place and that the insock shall only be replaced by a comparable insock supplied by the original footwear manufacturer. If the footwear is supplied without an insock it should be made clear in the leaflet that testing was carried out with no insock present. A warning shall be given that fitting an insock can affect the protective properties of the footwear.

**MAINTENANCE INSTRUCTIONS:** To extend the life of your shoes, we recommend to clean them regularly and to protect them with adequate products. Do not dry your shoes on a radiator, nor nearby a heat source.
